

“THE YES”  
CAMPAIGN

We are ordinary citizens of Northern Ireland who want  
a secure future for ourselves and for our children.  
We can achieve this only through a “YES” vote in the  
Referendum on 22 May 1998.

**YES**

**NO**

**VOTE YES. IT'S THE WAY AHEAD.**

## Why you should vote YES

**YES**

The politicians have worked hard. They took risks and worked for the community as a whole.

They have delivered the best possible deal. It may not meet all your aspirations, but it is the best compromise for everyone.

It isn't a victory for either side. But it provides a balance.

We can leave the Troubles behind and start the 21st century afresh.

There is much good will. The European Union and the United States are right

behind us. New investment and new jobs will come to the country.

The Agreement represents a unique accomplishment in conflict resolution. The opportunity will not come again. Think of it - the two Prime Ministers, the President of the USA, a former Finnish Prime Minister, a Canadian General, an American Senator and our own local politicians all working together, created a unique deal.

Ask yourself what alternative is there? If we walk from this, we walk away from peace and hope. We walk towards an unknown and dangerous future.

## What are we doing

**YES**

We are speaking to people of all religions or none, whether politically affiliated or not, and we are hearing a growing demand for peace and stability. We have opened an office and recruited people who can help us in the task of achieving a

"YES" vote in the Referendum on 22 May 1998. We are raising funds and receiving support in kind from individuals and groups representing every section of our society. Northern Ireland people around the world are offering help.

## What you can do

You can join us in this, the only independent campaign for a "YES" vote in the Referendum. Our older people deserve to be able to live our their days

free of fear. Secure the future for your children.

Say "YES" to peace and stability.
