CONWAY STREET COMMUNITY ENTERPRISES PROJECT LTD

Please see the attached copy letter from Fr Des Wilson to the Chairman asking for a reassessment of the Conway Mill project to enable it to receive financial support from the Fund.

As you know, the Fund has previously declined support for this project as it was deemed to be inconsistent with the British Government's policies and priorities. I would be grateful if you could confirm whether or not this is still the case and if there has been any change in the Government's viewpoint.

D J CRABBE
IFI Secretariat

7 June 1993

Note

David Crabbe rang to say that Mr Semple had asked, ⁱⁿ view of the time lapse from the last inquiry, that a security review be carried out before a response is issued. Also any response should be vetted by the Legal Services. I advised him that both these points were being pursued.

Dear Mr Mc Carter,

I am writing to you on behalf of the Management Board of Conway Street Community Enterprises

The Board has managed Conway Mill for more than ten years now and during that time has contributed substantially to the work prospects of the area in which the Mill is situated. It has done this with no help from any government sponsored agency.

We believe the time has now come for a re-assessment of Conway Mill and its future by all agencies interested in industrial and commercial development. Our desire is to contribute to the commercial and industrial development of an area which needs development so badly. We have shown that with economical use of small resources we can help to create work and also the education which is necessary to foster work.

With this in mind we would like to discuss with representatives of the IFI what our future development can be, and how we can co-operate for the good of the area.

We would be grateful if you could facilitate this new beginning.

With every good good wish,

Yours faithfully,

James Wilson
